EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edwin H. Keusey on 23 October 2006.

The application has been amended as follows:
claim 25 has been canceled.

2. The following is an examiner's statement of reasons for allowance.

Jones et al. represent the closest prior art. However, Jones et al. do not teach or fairly suggest the use of a liquid solution comprising additives wherein the solvent residue and additives are mutually miscible with the reflective surface of the workpiece. Moreover, while Ullmann's Encyclopedia disclose that it is known to incorporate various additives and solvent compositions into paint compositions to adjust the properties of the applied paint coating, the reference does not teach or fairly suggest the use of additives and solvents such that the additives and residues of the solvents are mutually miscible with the surface material to which they are applied.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
